

Proposed New Claim 1

"A system comprising:

- a) a plurality of data area access systems, each having a secure data memory associated therewith; and
- b) an information center, wherein
- c) said system is configured and adapted such that entry of a piece of data into said system comprises a writing of said piece of data to a respective one of said secure data memories that can only be effected by an authorized user of the data area access system associated with the respective secure data memory and in conjunction with the authorization of an authorized user of said information center, and
- d) said information center is configured and adapted for storing information that defines respective access rights for each piece of data entered into the system."

Proposed New Claim 2

"The system of claim 1, wherein said system is configured and adapted such that display and modification of the information defining the access rights to said entered piece of data is restricted to said authorized user of said information center, in conjunction with whose authorization said entry was effected."

Proposed New Claim 3

"The system of claim 1, wherein said system is configured and adapted such that access to any piece of data entered into the system is restricted to those authorized users of the data area access system having appropriate access rights as defined by said information for the piece of data to be accessed."
